FACSIMILE ILLUSTRATIONS IN COLOUR
AND TINT OF WHISTLER'S OIL-COLOURS,
WATER-COLOURS, PASTELS & ETCHINGS

This Etching will be printed direct from the copper by Mr. Menpes himself, and the plate will be destroyed after the 500 impressions have been taken from it, or before, if it shows the slightest signs of deterioration. The Illustrations in this Edition will be the earliest impressions, and the letter-press will be printed on hand-made paper. Each copy will be signed by Mr. Menpes, and numbered. The cover of the volume will be of simple and chaste design, and the top edge will be gilt.

THE WHISTLER EXHIBITION

I N explaining these works to the public, I claim my authority, not only as an expert but as a friend of Mr. Whistler at the time that he was engaged upon his best work. No one, I venture to think, knew Whistler's work—from the etching of the plate to the printing of the proof—so intimately as I did.

This collection of mine is a collection of the very finest proofs, most of them first impressions in the most perfect condition, with the bloom upon them. In certain cases of the dry points the plates have been so delicate that two or three proofs have swept away the burr entirely, and so destroyed

THE WHISTLER

all richness, but my proofs are absolutely unique in their perfection.

In this exhibition I show mainly those rare and beautiful proofs which cannot be seen anywhere else. I have eliminated altogether the first and last periods of Whistler's career, and I have confined myself entirely to that great middle period when his best work was in the course of production, and even this is fined down to the choicest specimens.

I would like to correct one curious error that has crept in amongst Whistler collectors and connoisseurs, and that is that his choicest etchings and dry points were often printed on thin Japanese paper. Now, as I know well from personal experience, Whistler disliked this much-vaunted Japanese paper, and preferred instead the rich old paper from France and Holland. This paper, as

EXHIBITION.

will be seen from my collection, greatly enhances the value, and brings out the quality of his rarest work.

To the lover of Whistler this collection will especially appeal, in that it reveals to him the exquisite care which the master expended on each plate ; for he worked on the plate, touching here, eliminating there, heightening a lighted window, darkening a doorway, until perfection was attained in a picture which in any state was always beautiful ; and this is particularly noticeable in the Venice series. As he printed he worked, engraving on the plate itself during the process of printing. And in many of this particular series it will be discovered that no two proofs are alike, thus making each proof unique, and assuring to its possessor the fact that it is the only one of its kind in the world.

THE ART OF . . JAMES McNEILL WHISTLER

An Appreciation by T. R. WAY and G. R. DENNIS.

THIS volume is not in any sense a biography of the late Mr. Whistler. It professes to be nothing more than an account and appreciation of his work, and the biographical chapter which is prefixed gives only the chief facts of his life, so far as they affected his art. Many of these facts and dates are now for the first time given correctly.

The book was begun by Mr. Way more than two years ago, but was laid aside, and taken up again, in conjunction with Mr. Dennis, a few months before the master's death. It is the outcome of an extensive study of his work, Mr. Way having been intimate with Mr. Whistler, and an enthusiastic admirer and student of his art, for more than twenty years. The table of Contents will afford some idea of the scope of the volume, which is the first attempt to give an account of every side of the artist's activity."

The kindness of the owners has enabled the authors to illustrate their text with a varied and representative collection of reproductions of the artist's work in all its branches, such as has not hitherto been put before the public. Among the oil paintings given are "At the Piano," "Symphony in White No. III.," "La Princesse du Pays de la Porcelaine," "The Golden Screen," "Portrait of Himself," Portraits of Dr. Whistler, the Painter's Mother, Irving as Phillip II. of Spain, M. Théodore Duret (here illustrated by the owner's permission for the first time), Miss Rosa Corder, Lady Meux, "The Fur Jacket," "The Master Smith," and the "Little Rose" of Lyme Regis, "The Thames in Ice," "Old Battersea Bridge," "Cremorne Gardens," "Pink and Gray—Chelsea," and many others. There are in addition a large number of water colours, pastels, etchings, lithographs, book-illustrations, etc., and also facsimile reproductions, in colour, of "St. Ives" (a water colour) and of several studies in pastel.
